Subject: Weekly for spanish labeling call with states
Date: Wednesday, June 10, 2015 11:50:51 AM

I just added this to the weekly file in SharePoint. If you have any edits, please make them directly in the SharePoint file or let Joe know if the file is locked. Thanks!

Spanish Pesticide Labeling Conference Call with States: On June 4th, PRD and RD members of the OPP Spanish Labeling workgroup had a conference call with state lead agency representatives from Florida, Michigan, Virginia, and New Mexico to provide an update on the development of the Spanish Pesticide Labeling Pilot Program. The workgroup described the progress of the Translation Guide and requested feedback on the section of the Submission Guide that deals with submitting pilot labels to states. The states suggested that approval of pilot labels could be expedited and even offered to help with evaluation of pilot labels in the field. The workgroup will continue to work with these and other states directly and through AAPCO as the pilot nears the launch date. (Jose Gayoso, 347-8652)
